

PERTAMA DIGITAL BERHAD INKS MOU WITH KRIDENTIA TECH

TO ENHANCE AND SECURE DIGITAL ID FOR MALAYSIA

PETALING JAYA, 17 April: Main Market-listed **Pertama Digital Berhad (Pertama Digital)** today announced the signing of a Memorandum of Understanding (MOU, Proposed Collaboration) with **Kridentia Tech Sdn Bhd (KTSB)**.

The Proposed Collaboration outlines clear objectives agreed upon by both parties to **explore** projects for the **benefit of utilising Digital ID solutions** and to **design, develop and enhance other digital products and services** for the benefit of Malaysians which **includes joint participation in government projects**.

Pertama Digital **invests in and nurtures** great fintech and govtech companies that build **impactful, inclusive solutions** for Malaysians. Their feature service includes **eJamin, a bail payment solution** available at Malaysian courts and the **MyPay mobile** app that offers **payment solutions for selected** government agencies.

Kridentia Tech and its group of companies are principally involved in providing cutting edge biometrics security systems, servicing IT hardware and software as well as research and development of information technology for customers in the civil and law enforcement agencies, telecommunications and financial services industries.

KTSB CEO, Dato' Abdul Rashid Ghani commented, "this collaboration allows us to **expand our reach beyond** just biometric security systems. The current agencies we are working with such as **Polis Diraja Malaysia (PDRM), Jabatan Pendaftaran Negara (JPN), Employees Provident Fund (EPF)** alongside other **agencies locally, can benefit** from the enhanced **levels of security** for the government's **proposed Digital ID** project".

"Our individual strengths in the digital space will **enhance the capabilities** of the government in introducing **world-class digital products** such as the **Digital ID** with **industry-approved levels of security** against **threats** from potential scammers. Information is **valuable** and we believe **our platform such as MyPay** and the **proposed Malaysian Digital ID** can be further enhanced and improved to **provide peace of mind to end users**", adds Saify Akhtar, Group CEO of Pertama Digital Berhad.

The Proposed Collaboration is set to continue for a period of 12 months. Both parties will agree in writing on the commercial terms, ensuring a mutually beneficial partnership that enhances digital services and products for Malaysians.
