

FOR IMMEDIATE RELEASE

PERTAMA DIGITAL IS READY TO ROLL WITH mydigital/D

Seamless Integration of MyDigitalID Single Sign-On Across Key Initiatives Including eJamin, KOCEK, and MyPay, Paving the Way for a More Connected Digital Future in Malaysia.

Kuala Lumpur, Malaysia - Pertama Digital Berhad is proud to announce the completion of its back-end integration work, incorporating MyDigital ID onto its flagship products. Through its subsidiary Dapat Vista (M) Sdn Bhd, Pertama Digital has seamlessly embedded MyDigital ID into eJamin, KOCEK, and MyPay, reaffirming its commitment to supporting the Malaysian government's digital transformation efforts. This strategic integration paves the way for a more secure, accessible, and efficient digital ecosystem for all Malaysians.

With MyDigital ID, users can now enjoy a unified digital experience across Dapat Vista's products, using a single login credential to access multiple services with enhanced security and ease. The integration of MyDigital ID is part of Pertama Digital's broader vision of supporting Malaysia's shift towards a digital-first nation, ensuring that key services are secure, accessible, and user-friendly for both individuals and businesses.

Revolutionising Access to Digital Services: One Log-In, Endless Possibilities

Each of Dapat Vista's offers a unique and valuable service to Malaysians, and with MyDigital ID, users will benefit from MyDigital ID's security and simplicity:

• eJamin: As Malaysia's pioneering digital bail payment solution, eJamin has already transformed the bail process, reducing it from hours to mere minutes by allowing users to post bail online quickly and securely. With over one hundred and twenty thousand average annual users, eJamin's integration with MyDigital ID further enhances this process, adding an extra layer of security and making identity verification even faster. Legal practitioners across Malaysia recognize eJamin as a valuable tool for streamlining bail administration, reducing administrative burdens,

and enabling a more efficient legal process. This integration reinforces eJamin's commitment to seamless transactions, ensuring that bailors can complete their payments swiftly and securely.

- KOCEK: Malaysia's first digital coin conversion service, KOCEK allows Malaysians to convert spare change into a digital wallet that can be used for cashless transactions. Serving more than hundred thousands customers per annum, KOCEK's integration with MyDigital ID allows quick and secure identity verification, creating a trusted gateway to Malaysia's digital economy. Small business owners have highlighted Kocek as a modern, convenient cashless option that enhances the flow of daily business transactions, promoting financial inclusivity for underserved communities.
- MyPay: MyPay, with an active user base exceeding a million, empowers Malaysians
 with an all-in-one solution for bill payments, savings, investments, and daily financial
 management. With MyDigital ID's SSO and eKYC capabilities, MyPay provides users
 with secure and verified access to essential services, aligning perfectly with
 Malaysia's vision for a digital future.

Supporting a Secure Digital Malaysia Together

The integration with MyDigital ID goes beyond a technological update; it reflects Pertama Digital's dedication to making digital services more accessible, secure, and practical for every Malaysian. With MyDigital ID's eKYC feature, user identities can be verified with ease, adding an extra layer of confidence to each interaction. Pertama Digital's collaboration with the Malaysian government on this initiative helps create a trusted digital environment, empowering citizens while safeguarding their data within a secure, nationally supported framework.

"This integration with MyDigital ID represents an **important milestone in our commitment** to creating innovative digital solutions that serve the needs of the rakyat," stated Sabri Ab Rahman, Group Executive Director of Pertama Digital Berhad. "By integrating MyDigital ID into our platforms, we are providing a secure, unified digital identity that streamlines access to essential services for the rakyat."

#PERTAMADIGITAL

"This collaboration with the Malaysian government is raising the bar for digital security and

simplifying how Malaysians engage with key services, empowering them to navigate their

digital lives with confidence."

Looking Forward: Pertama Digital's Vision for the Future

Pertama Digital is committed to continuously enhancing its digital solutions to serve the

evolving needs of Malaysians. The company has ambitious plans to expand its product

offerings, build new partnerships, and enhance the capabilities of its platforms, all while

staying true to its mission of promoting digital inclusivity and security. With each innovation,

Pertama Digital strengthens its role as a key enabler of Malaysia's digital transformation.

-END-
